Written Statement describing the nature or reason for variance request:

We are requesting a variance regarding Fence installation at 1416 Bradford Dr Macedonia

Currently, the code reads that I would need to install a fence starting at the back corner of my home, due to being on a corner lot and "having 2 front yards".

Installing a fence from the back corner of my house would deprive reasonable use of my property by having a fence run through the center of my backyard, cutting off use to most of my back yard. Currently, we have 2 large trees, shed, and raised garden bed that would cause practical difficulty with placement of fence as the code reads.

Also, a new concrete patio was poured this last year around the side and back of our home. Without a variance granted, the fence would need to be installed down the middle of a concrete patio.

This fence is intended to keep my 3 dogs from running into the street, and other dogs from entering my property.

The black chain link fence will only be 4' high and will not impose on visibility of traffic from any direction. The fence will also bring improvements to the presentation of my property and will not be injurious to the property or appearance of the neighborhood.

Fence Regulations: 1171.16 Purpose:

The chain link fence will not provide privacy or block visibility for the neighbors. The fence will respect the rights and enjoyment of neighboring property owners, the appearance of the community, and the overall health, safety, and public welfare of the residents in my neighborhood.

Macedonia Board of Zoning Appeals
9691 Valley View Road
Macedonia, Ohio 44056

Dear Members of the Zoning Board of Appeals:

I am writing to seek a fence variance for my single-family home at 9180 Blueberry Lane Macedonia, Ohio

Current Zoning requirements say that fences on a corner lot must be set back 40 feet from the right of way line.

The Northside of my house is 38 feet from ROW.

Therefore, the reason for this variance is that if the fence was placed 40 feet from the edge of ROW, the fence placement would divide my rear yard down the middle making my property less secure, difficult to maintain with a mower, and limit access to my newly built barn.

The proposed fence is of black chain-link construction at 4 foot high.

I have taken time to speak with neighbors regarding the variance request and proposed new fencing and said proposal has no disputes. Additionally, my property was surveyed this past weekend. I have enclosed said survey and Plot Photograph outlining my proposed fence location.

I hope you agree with my request would produce a pleasing proper addition if not an enhancement to my neighborhood. Should you have any questions, please do not hesitate to contact me at 216-316-3050.

Thank you for your thoughtful consideration of this request.

Sincerely Yours,

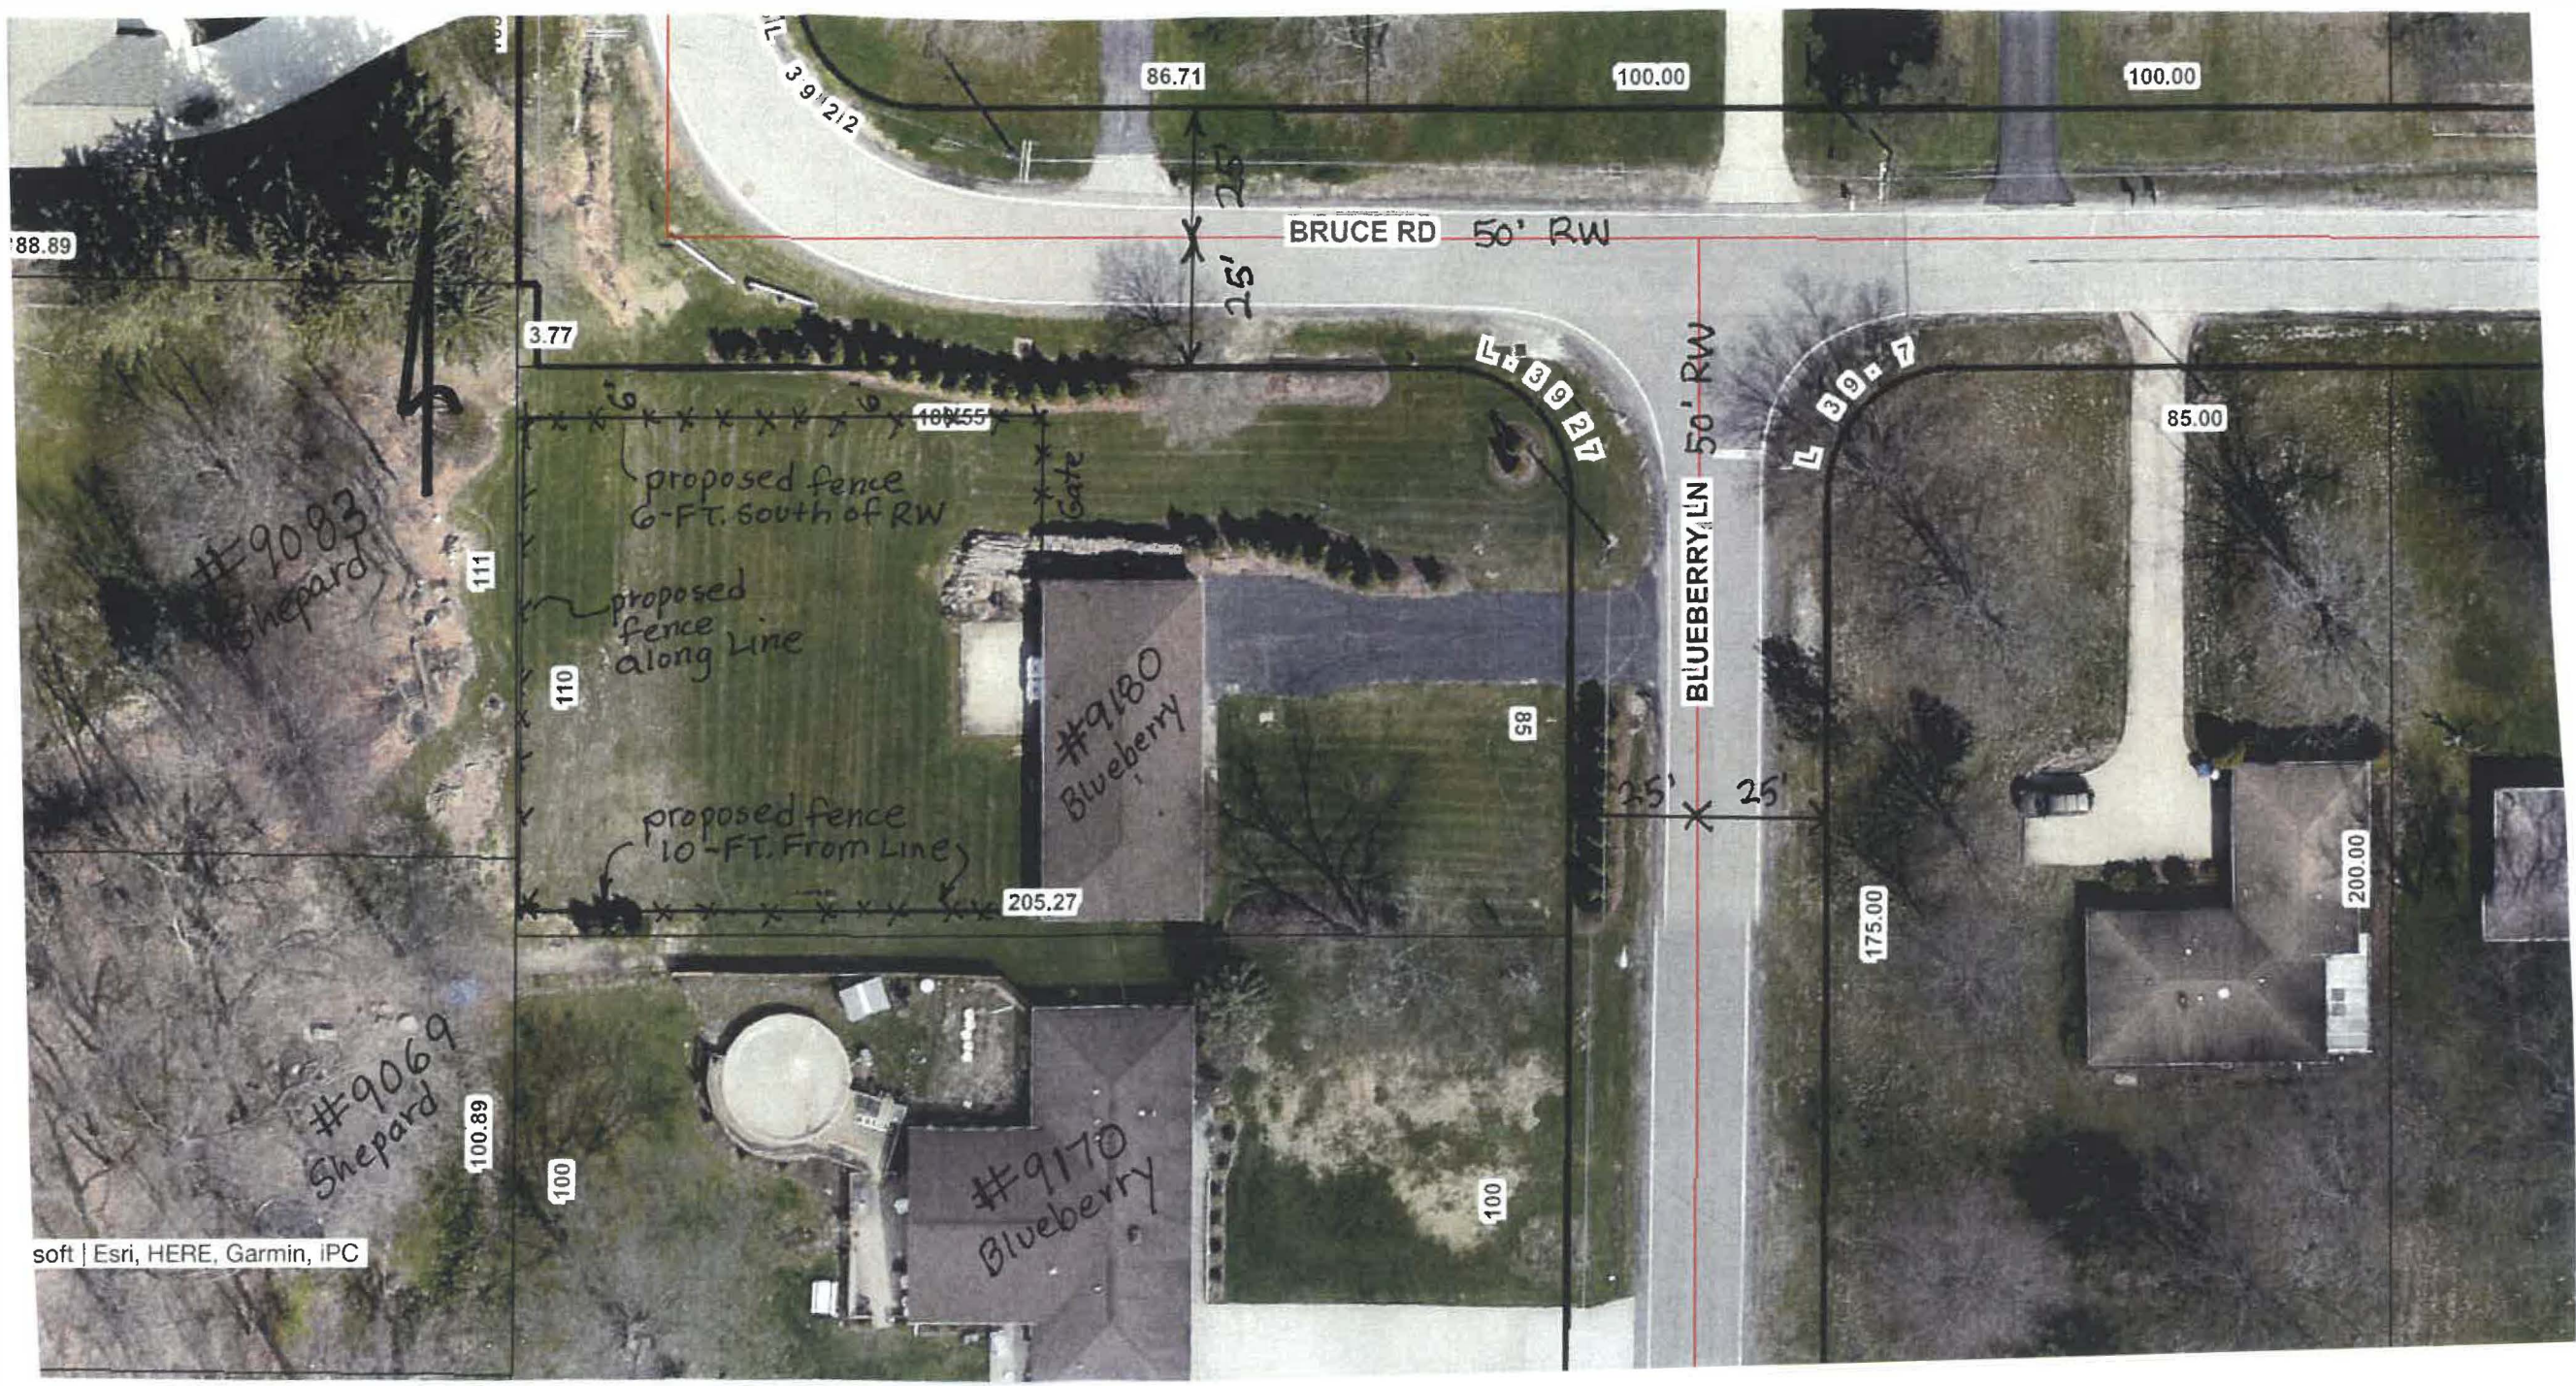

Doug Reynolds
